The Steamer Granite City to Le Put on Run Between Petersburg and Norfolk.

(Special to The Times-Dispatch.)
PETERSBURG, VA., Nov. 4.—Petersburg Democrats held an enthusiastic rally at the Academy of Music last night. The first speaker, Mr. Charles T. Lassiter, candidate for presidential elector from this district, made an able and eloquent address, and discussed the great national issues of tariff and trusts, and the arbitrary personality of the Republican President in a way that held the close attention of his audience.

Congressman Southail followed Mr. Lassiter in a forcible speech, emphasizing the cardinal principles of taxation under a government for and by the people, and severely arraigning the Republican party us a violator of these principles and a taxer of the many for the benefit of the few.

as a violator of these principes and taxer of the many for the benefit of the few.

MR. TUCKER SPEAKS.

Former Congressman H. St. George Tucker delighted his Joearers with a speech repitte with sound argument and sparkling with fun. Mr. Tucker congratulated the Democracy on their reunion as to the money question, and laughed at Republican discomfiture because of that proceeding. Apropos of this reconciliation, he said that the love of Bryan and Parker reminded him of a marriage in Rockingham county between Miss Sue Lemon and Mr. Ebenezer Sweet, which was duly honored by the local poet with this effusion:

"How wondrously extremes do meet In Sue and Ebonezer;
Sue is no longer sour, but Sweet, and Fibe a Lemon squeezer,"
This ode produced a curtain call, after which Mr. Tucker went for the Roosevelt administration, hammer and tongs, announcing that his text was taken from one of the library of books that his enemy had written, "Oliver Cromwell," this extract: "In great crises constitutions may be overturned and statutes disregarded." The speaker said that in many matters of national importance, notably in the Panama revolution, the present administration had exhibited the spirit of that most dangerous and un-American principle.

## WORTHY OF NOTE.

General Advance in Staple Prices Covering Wide Range.

(By Associated Press.) NEW YORK, Nov. 4.-Bradstreet's to-

NEW YORK, Nov. 4.—Bradstreet's tomorrow will say:

Warm weather, activity in fall farm work and, to a lesser degree, ante-election interest have detracted from retail trade distribution North and West. For like reasons jobbing sales are rather smaller in volume. Against this, however, is to be cited increased activity in a number of industries, headed by fron, steel and allied lines of manufacture. Resumption of work by 1,000 Eastern cotton-mill hands is a feature, but the great Fall River tie up continues, and the strike of a comparatively small number of mine employes is responsible for the idleness of close to 40,000 Indiana and Illinois coal miners and higher prices for bituminous coal. A very general advance in staple prices, covering a wide range of industry, is an event worthy of note. Reports from the winter wheat crop are of an immense, possibly a record, acreage in that cerval, but drought and Hessian fly damage reports defract from an otherwise excellent prospect in the surplus-producing States of the West.

The South gives relatively the best reports as to trade.
